Lamda_AddExample

 Example of Lamda Expression for addition of two int.
package com.technicalstack.basic;

```
interface Demo {
public void add(int a, int b);
}

public class Lamda_AddExample {

public static void main(String[] args) {

Demo d = (a, b) -> System.out.println("Sum is:" + (a + b));
d.add(10, 20);
d.add(100, 200);

}

}
```
Output:

Sum is:30
Sum is:300
